# Eye Protection

Safety eyewear is an important form of PPE that protects one of the most important yet exposed parts of the body. Understandably, the European Standards covering eye protection are some of the most comprehensive of all those dealing with any item of PPE.

It's important that the user considers the environment and level of risks involved before selecting the correct eyewear item.

To assist with the selection, all PPE is required to be marked with the specification of it's standard, with lettering/numbering acting as an indication of capability.

In accordance with TIMCO's quality standards we only supply glasses with the highest class 1 optical quality lenses. Meaning that there is no optical distortion and they are suitable for long periods of wear.

Example of code on lens

CE 2C-1.2 1F

## Radiation Protection EN 170 / EN 172

2	UV Protection (EN170). The number 2 indicates the filter may effect colour recognition.
2C or 3	UV Protection (EN170). The number 2C (previously 3) indicates the filter allows good colour recognition.
5	Solar Protection (EN172). i.e. 100% UV sun glare protection with no infrared (IR) protection.
6	Solar Protection (EN172). i.e. 100% UV sun glare protection with infrared (IR) protection.

## Light Transmission

1.2	74.4% – 100%
1.7	43.2% – 58.1%
2.5	17.8% – 29.1%
3.1	8.0% – 17.8%

EN 170 : Ultraviolet (UV) filters  
EN 172 : Solar radiation filters

## Optical Quality (Class)

1	High quality for regular use.
2	Medium quality for occasional use.
3	Low quality for rare use.

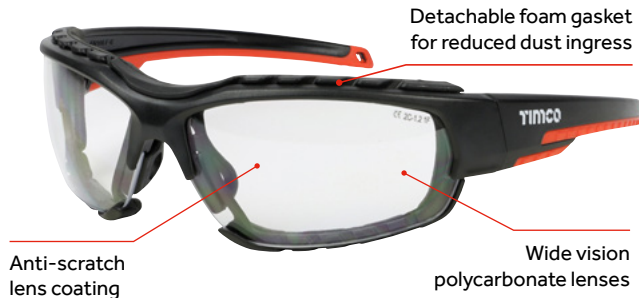

## Mechanical Strength EN 166

B	Medium energy impact. Resists a 6mm/0.86g ball travelling at 120m/s.
F	Low energy impact. Resists a 6mm/0.86g ball travelling at 45 m/s.
K	Resistance to surface damage by fine particles. Often referred to as Anti-scratch.
N	Resistance to lens fogging. Often referred to as Anti-fog or Anti-mist.
T	Resistance to high speed particles at extremes of temperature, -5°C to +55°C (can be seen in conjunction with F and B).

## Sports Style Safety Glasses

Full Frame with Foam Dust Guard

A designer pair of safety glasses built for strength, comfort and flexibility. The unique detachable foam gasket around the frame reduces the risk of dust, dirt and liquid ingress whilst providing additional comfort to the user. The soft rubber lining on the arms and around the nose give extra comfort and grip around the ears, temple and nose when worn for long periods. The clear lenses provide excellent visibility and are treated with an advanced micro coating to prevent scratches.

Includes  
microfibre  
storage  
pouch

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

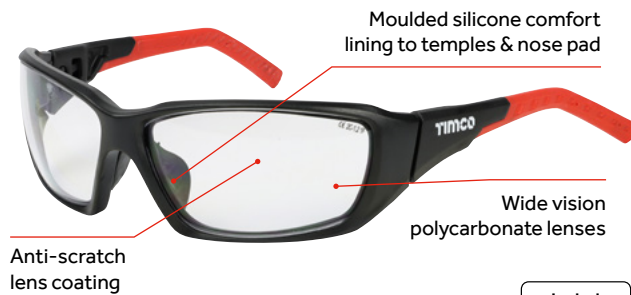

Moulded silicone  
comfort lining to  
temple & nose pad

Product  
Code:  
770123

## Sports Style Safety Glasses

Full Frame with Adjustable Temples

A designer pair of safety glasses built for strength and comfort. The soft rubber dual function adjustable arms and temples guarantee optimal fit and comfort on all head shapes and sizes. The rubber nose piece gives added comfort in all conditions around the bridge of the nose.

Includes  
microfibre  
storage  
pouch

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Multi-adjustable  
temples

Product  
Code:  
770401

## Premium Safety Glasses

Half Frame

Robust and modern safety glasses giving ultimate comfort and vision on all head shapes and sizes. The soft rubber lining on the arms and around the nose give extra comfort and grip around the ears, temple and nose when worn for long periods. The clear lenses provide excellent visibility and are treated with an advanced micro coating to prevent scratches.

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Moulded silicone  
comfort lining to  
temple & nose pad

Product  
Code:  
770379

## Slimfit Safety Glasses

Full Clear Frame

Modern slim fit safety glasses with additional side protection. Ergonomically designed to give ultimate comfort and protection on all head shapes and sizes. The soft rubber lining on the arms and around the nose give extra comfort and grip around the ears, temple and nose when worn for long periods. The clear lenses provide excellent visibility and are treated with an advanced micro coating to prevent scratches.

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Wide vision  
polycarbonate  
lenses

Product  
Code:  
770505

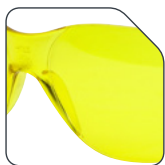

The TIMCO range of standard and comfort safety glasses come in clear, amber and smoked lens types to suit the varying light conditions of indoor and outdoor workplace environments.

#### Lens Shades:

**Clear Lens:**  
For most applications conducted in normal light conditions.

**Amber Lens:**  
For brighter vision and improved contrast when working in poor light or overcast weather.

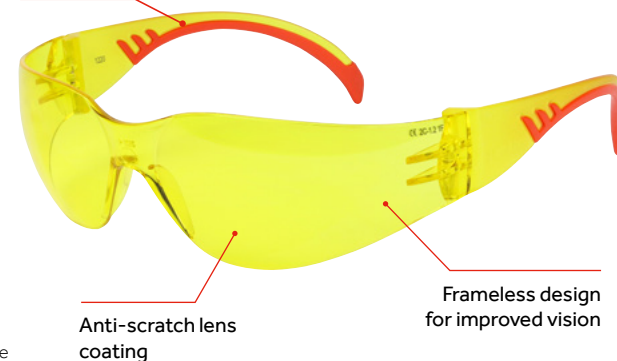

**Smoke Lens:**  
For bright light or sunny conditions to maintain vision but protect the eyes from sun glare.

## Comfort Safety Glasses

Moulded silicone temples for comfort

Amber Lens:  
Code (770010)

Lightweight safety glasses with soft overmould to arms giving extra comfort and grip around the ears and temples when worn for long periods. Available in three lens types to suit varying light conditions of indoor and outdoor workplace environments. Treated with an advanced coating to prevent scratches.

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170  
EN 172 (Smoke lens)

Clear Lens:  
Code (770999)

Smoke Lens:  
Code (770618)

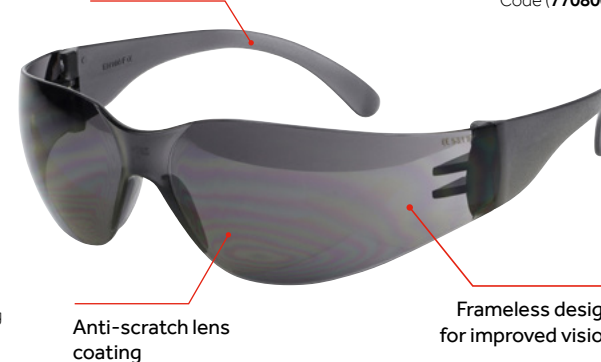

## Standard Safety Glasses

Lightweight

Smoke Lens:  
Code (770800)

Lightweight economic safety glasses designed to be comfortable and secure. Available in three lens types to suit varying light conditions of indoor and outdoor workplace environments. Treated with an advanced coating to prevent scratches.

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170  
EN 172 (Smoke lens)

Clear Lens:  
Code (770023)

Amber Lens:  
Code (770340)

## Slimfit Overspecs

Comfortable overspec glasses to provide a low profile solution when used with spectacles. The arms are extremely flexible and the soft rubber lining gives extra comfort and grip around the ears and temples when worn for long periods. Treated with an advanced micro coating to prevent scratches.

Moulded silicone comfort lining to temples

One size fits all

Anti-scratch lens coating

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Low profile overspec design

Product Code:  
**770753**

## Overspecs

Side vents

Wide vision polycarbonate lenses

One size fits all

Broad temples for side eye protection

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Side vents for mist reduction

Product Code:  
**770159**

## Wraparound Safety Glasses

Anti-scratch lens coating

Low profile design

Wide vision polycarbonate lenses with side protection

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F  
EN 170

Adjustable arms

Product Code:  
**770571**

## Safety Goggles

### Sports Style Safety Goggles

A low profile high end pair of goggles, designed to ensure the user has consistent performance for long periods of wear. The extra soft rubber gasket moulds around the face to give extreme comfort and ultimate protection from liquids, vapours, chemicals and dust. The curved single piece shock and impact resistant lens maximises peripheral vision, whilst the indirect vents and anti-mist coating on the lens will prevent mist build-up.

Includes microfibre storage pouch

Optical Class 1  
Grade B KN Lens  
UV Protection

CE Approved  
EN 166 3 4 B (Frame)  
EN 166/EN170 (Lens)

Multi adjustable temples

Product Code:  
**770963**

## Premium Safety Goggles

Soft rubber gasket for comfort and maximum protection

Adjustable wider band for comfort

Anti-scratch lens coating

A slim line mid range goggle designed to protect the eyes from impact, dust, chemicals, paints and liquids. The low profile design and soft rubber gasket ensure consistent comfort around the face when worn for long periods of time. The extra wide adjustable head strap gives additional comfort around the head and prevents the goggles from slipping when used with a safety helmet or bump cap. The indirect vents and anti-mist coating on the lens will prevent mist build-up and liquid ingress.

Optical Class 1  
Grade BT Lens  
UV Protection

CE Approved  
EN 166 F (Frame)  
EN 166 3 4 BT /  
EN 170 (Lens)

Indirect vents and anti-mist coated lens

Product Code:  
**770258**

## Safety Goggles

Vented to prevent mist build-up

Soft and flexible vinyl frame

An economic goggle designed to protect the eyes from impact, dust and liquids. Ideal for short term usage such as sanding, spraying and cleaning. The indirect vents will prevent mist build-up and liquid ingress.

Optical Class 1  
Grade F Lens  
UV Protection

CE Approved  
EN 166 F (Frame)  
EN 166 1 F /  
EN 170 (Lens)

Adjustable headband

Product Code:  
**770147**

# Ear Protection

The ear protector chosen should provide enough attenuation to protect your hearing but consideration should also be given to its compatibility with other items of PPE being worn such as safety glasses.

Attenuation is the process of losing noise energy and it is the attenuation data that should be examined when selecting appropriate ear defenders.

The Single Number Rating or SNR value can be used to compare the level of noise attenuation offered by different hearing protectors.

The higher the SNR, the higher the level of noise attenuation or protection is provided by the hearing protection.

Once a noise reaches over 85 dB damage to hearing may begin. Wearing ear defenders with the correctly selected SNR value brings the ear's exposure to noise back down to a safe level, but should not be to a level that reduces sound too much or prevents sound entirely. This could then present additional dangers on site and in the workplace as may cause communication problems and the inability to hear warning signals.

To determine acoustic pressure on your ears, you subtract the SNR value from the average noise level that has been measured during the risk assessment. For example:

TIMCO's foldable ear defenders (770390) have a SNR of 30.4 dB.

**Warning:** Reducing sound lower level than normal talking may be a safety risk.

Note: This graph is meant as a guide only.

**Danger zone** - Unprotected above 85 dB may cause hearing damage.

## Foldable Ear Defenders

Ideal for long comfortable use in medium sound environments. The fully adjustable head band and deep cup cushions ensure a comfortable and secure fit. Foldable palm design for easy storage and to prevent contamination when not in use.

CE Approved  
EN 352-1:2002

Foldable for easy storage and hygiene

Product Code:  
**770390**

## Ear Defenders

An economic cupped ear defender, ideal for periodical wear when in low sound environments. The cup cushions, adjustable body ensure a true and comfortable fit on all head sizes.

Product Code:  
**770111**

Padded ear cups for comfort

CE Approved  
EN 352-1:2002

## Disposable PU Ear Plugs

Manufactured using a lightweight flexible polyurethane foam to give an unobtrusive and comfortable fit. The tapered body and slow expansion properties of the material allows the user to correctly position the plug to ensure ultimate performance.

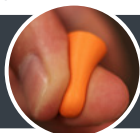

Product Code:  
**770049** (Qty: 200 Pairs)

CE Approved  
EN 352-2:2002

Product Code:  
**770867** (Qty: 50 Pairs)

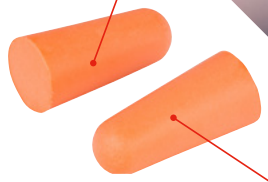

Lightweight and  
flexible polyurethane  
foam

Product Code:  
**770191** (Qty: 5 Pairs)

Tapered  
body for easy  
and precise fit

Slow expansion ensures consistent  
performance and comfortable fit

dB

Noise level  
reduction

## Face Shield

Lightweight flip-up detachable full face visor with an integral brow guard. Sold with an adjustable head harness to fit all head shapes and sizes.

Lightweight  
design

Detachable full face  
visor with integral  
brow guard

Product  
Code:  
**770654**

Adjustable head  
harness to fit all head  
shapes and sizes

Optical Class 1  
Grade B Shield  
CE Approved  
EN 166 3 B

# Masks

**Our range of dust masks provide clean and safe air when working in potentially hazardous conditions.**

Designed using the very latest technology in filtration material, the masks prevent harmful particles passing through.

Often an essential requirement of certain workplaces, all TIMCO masks are fitted with easy-breath exhalation valves and there are various filter protection levels in the range.

## **FFP3** | Highest level (Red)

Masks provide the highest level of protection that a disposable mask can offer. A well-fitting FFP3 mask can protect users against fine toxic particulates including asbestos, bacteria, viruses and radioactive particles. Reduces the wearer's exposure to airborne particles by a factor of 20. Equivalent to 99% filter efficiency.

## **FFP2** | Moderate level (Blue)

Face masks offer a moderate level of protection against hazardous mists, particulates and fumes. Reduces the wearer's exposure to airborne particles by a factor of 10. Equivalent to 94% filter efficiency.

**FFP1** | Lowest level - Face masks offer a low level filter efficiency level of just 80% and are not deemed suitable for the TIMCO mask range.

## FFP3

Protects against medium to high levels of dust from home repair, woodworking, construction or water based mist.

**Assigned Protection Factor (APF): 20**

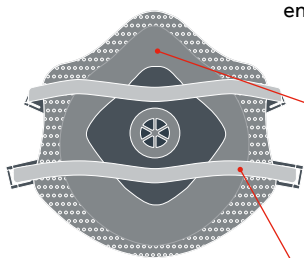

Equivalent to 99% Filter efficiency.

These masks comply with the requirements of the Regulation (EU) 2016/425 by means of the European Standard EN 149:2001 +A1:2009

### Face Mask Style:

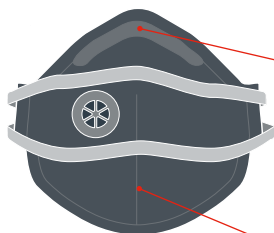

#### Moulded Masks with Valve

360 degree enhanced full face soft band for maximum performance

Adjustable latex free elasticated straps

#### Fold Flat Masks with Valve

Soft foam nose band for comfort

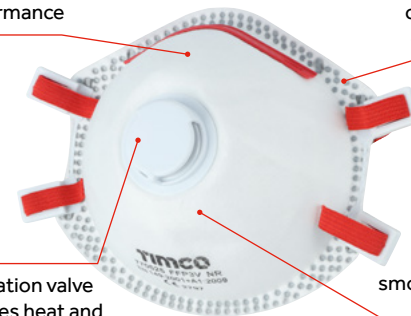

Fold flat design for convenient storage

## Moulded Masks with Valve

360 degree enhanced full face band for maximum performance

Contoured design ensures compatibility with glasses / goggles

Exhalation valve reduces heat and moisture build-up

Polypropylene outer layer for a smooth comfortable lining without loose fibres

Max comfort

360° full Enhanced face band

Adjustable latex free elasticated straps for closer fit

Product Code:

**Box (Qty 5pcs): 770525**

**Bag (Qty 3pcs): 770120**

## Fold Flat Masks with Valve

A medium to high protection folding mask with a 360 degree full face soft band for optimum comfort, fit and breathing. Foldable for convenience.

Exhalation valve reduces heat and moisture build-up

Latex free elasticated straps

Max comfort

Soft foam nose band

Fold flat design for convenient storage

Product Code:

**Box (Qty 10pcs): 770834**

**Bag (Qty 3pcs): 770008**

## FFP2

Protects against low to medium levels of dust from home repair or water based mist.

**Assigned Protection Factor (APF): 10**

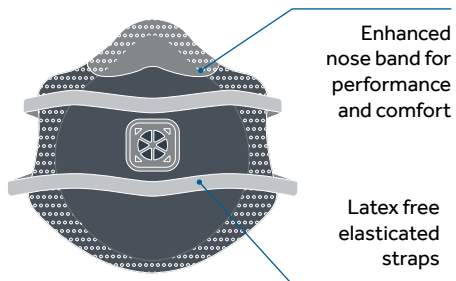

Equivalent to 94% Filter efficiency.

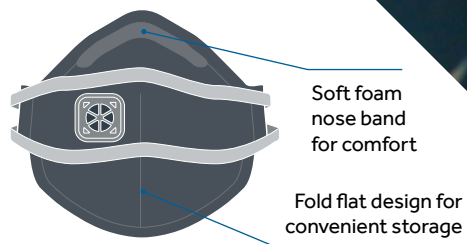

These masks comply with the requirements of the Regulation (EU) 2016/425 by means of the European Standard EN 149:2001 +A1:2009

### Face Mask Style:

# Gloves

A comprehensive range of work gloves designed for the toughest and harshest year-round domestic, work site and commercial environments.

Constructed from a variety of innovative materials, the TIMCO safety glove range has been designed to cover multiple environments and applications where there is risk of serious injury such as cuts, abrasion and splinters. Used to provide general comfort and cushioning when regularly handling rough or heavy materials, gloves will enhance grip on hand held equipment to ensure safe, smooth control and operation of machinery and tools.

protection  
level C

## High Cut

PU Coated HPPE Fibre with Glass Fibre Gloves

Excellent  
grip

Seamless  
liner with  
breathable  
back

Elasticated  
knitted cuffs  
for comfort

Provides a high level of cut resistance whilst giving excellent grip. Ideal for environments where there is a higher risk of cut and puncture, such as construction, manufacturing, glazing, warehousing, landscaping and farming.

Sizes: M (770885) / L (770745) / XL (770228)

CE Approved  
EN 388  
EN ISO 21420

level C

## Medium Grip

PU Coated HPPE Fibre with Glass Fibre Gloves

Excellent  
grip

Seamless  
liner with  
breathable  
back

Elasticated  
knitted cuffs  
for comfort

Provides a medium level of cut resistance whilst giving excellent grip and dexterity. Ideal for environments where there is an increased risk of cut and puncture, such as construction, manufacturing, landscaping, warehousing and farming.

Sizes: M (770209) / L (770040) / XL (770715)

CE Approved  
EN 388  
EN ISO 21420

4 = Abrasion  
X = Cut  
4 = Tear  
2 = Puncture  
B = EN ISO 13997

Medium anti cut  
protection  
level B

## Toughlight Grip

### Sandy Latex Coated Polyester Gloves

A highly flexible and extremely comfortable glove. Excellent breathability with good grip and anti-slip properties.

Sizes: M (770558) / L (770847) / XL (770347)

Multi-Pack (12 Pairs):  
Sizes: L (770112) / XL (770064)

CE Approved  
EN 388  
EN ISO 21420

2 = Abrasion

3 = Tear  
1 = Puncture

Seamless liner with breathable back

## Secure Grip

### Smooth Nitrile Foam Coated Polyester Gloves

Smooth textured nitrile foam coating for a secure grip in wet

Seamless liner with breathable back

Lightweight design

Elasticated knitted cuffs for comfort

Designed to give excellent grip. A supple, lightweight glove giving a secure grip in wet, dry and oily conditions whilst not impeding dexterity.

Sizes: M (770846) / L (770716) / XL (770944)

Multi-Pack (12 Pairs):  
Sizes: L (770700) / XL (770864)

CE Approved  
EN 388  
EN ISO 21420

4 = Abrasion  
1 = Cut  
2 = Tear  
1 = Puncture

## Durable Grip

### PU Coated Polyester Gloves

Lightweight ergonomic design

Seamless liner with breathable back

Elasticated knitted cuffs for comfort

Designed for precision work. This tough, tight fitting and durable glove is ideal when handling small components.

Sizes: M (770249) / L (770736) / XL (770649)

Multi-Pack (12 Pairs):  
Sizes: L (770324) / XL (770718)

CE Approved

EN ISO 21420

3 = Abrasion  
1 = Cut  
3 = Tear  
1 = Puncture

## Eco - Grip

### Crinkle Latex Coated Polycotton Gloves

An economic general use glove with good grip ideal for construction, manufacturing, landscaping, warehousing, farming and many more.

Sizes: M (770226) / L (770194) / XL (770667)

Multi-Pack (12 Pairs):  
 Sizes: M (770583) / L (770189) / XL (770524)

## Light Grip

### Crinkle Latex Coated Polyester Gloves

A strong general purpose glove with excellent grip and durability. Tight fitting for improved dexterity.

Crinkle textured coating for a strong grip

Sizes: M (770852) / L (770164) / XL (770746)

## Warm Grip

### Crinkle Latex Coated Polyester Gloves

Excellent thermal insulation

Crinkle textured coating for strong grip

Strong general purpose glove with excellent thermal insulation, durability and grip. Ideal for the colder months or in temperature controlled warehouses.

Sizes: M (770826) / L (770496) / XL (770766)

## Aqua Thermal Grip

### Sandy Latex Coated Polyester Gloves

Polyester and acrylic napping brushed double thermal liner with full hand-dipped orange latex. The perfect glove for harsh, cold and damp outdoor environments. Excellent grip and comfort.

Ideal for cold & wet outdoor use

Elasticated knitted cuffs for comfort

Full hand waterproof coating

Sizes: M (770673) / L (770204) / XL (770747)

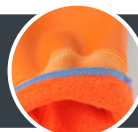

CE Approved  
EN 388 / EN 511  
EN ISO 21420

2 = Abrasion

## Knee Pads

### Professional Knee Pads

These anti-slip gel filled PVC shell knee pads mould around your knees to give ultimate protection and comfort but offer a flat ergonomic outer design for maximum and sturdy support on hard surfaces. 'Stay-cool' technology provided by breathable mesh fabric combined with breathable padding.

Non-marking caps

Broad & adjustable straps with hook and loop for comfort and easy fitting

Stay-cool and breathable fabric design

Ergonomic design with gel core for maximum support and comfort

CE Approved  
EN 14404:2004  
Type 1

Flat anti-slip PVC caps for maximum stability on uneven surfaces

Product Code:  
770789

## Knee Pads

These anti-slip gel filled PVC shell knee pads mould around your knees to give ultimate protection and comfort when used on hard or harsh surfaces for long periods of time.

Stay-cool and breathable fabric design

Broad & adjustable straps with buckles for comfort and easy fitting

Non-marking caps

CE Approved  
EN 14404:2004  
Type 1

Anti-slip PVC caps with gel core for comfort and protection

Product Code:  
770456

## Knee Pad Inserts

Durable foam knee pad inserts for standard pocketed trousers and overalls. Articulated multi-directional design, bends and moves for ease of mobility.

Can be cut to size

One size fits all

Lightweight for maximum comfort

CE Approved  
EN 14404:2004  
Type 2

Durable high density padding for added protection

Product Code:  
770301

## Cat III Type 5 / 6 Coverall

### High Risk Protection

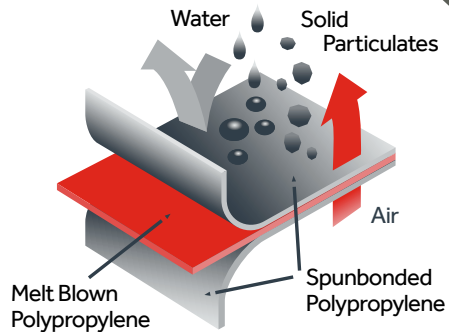

A Cat 3 Type 5/6 SMS protective disposable coverall with hood gives ultimate protection against substances such as vapours, asbestos, paint, dust, spray and splatter.

Tape seal

**770755**  
(UK 5-12)

Hard wearing  
waterproof shoe  
cover

CE Approved  
EN 14404:2004  
Type 1

# Hi-Vis Clothing

The movement of machinery and vehicles in the workplace presents major risks to staff and visitors. There are more than 5,000 incidents involving transport in the workplace each year. Staying visible with the use of high visibility clothing is essential when working on construction sites and in warehouses and significantly reduces this risk.

EN ISO 20471 categorises all Hi-Vis clothing into three classes. The selection of Hi-Vis should be based on a risk assessment of the conditions and risks for a particular worker.

Certification of items into classes is based on the combined surface area of reflective materials for each item:

	Class 1	Class 2	Class 3
Reflective Tape	0.10sqm	0.13sqm	0.20sqm
Fluorescent Material	0.14sqm	0.50sqm	0.80sqm

**Hi-Vis Class 1** – The lowest level of visibility. An example would be Hi-Vis trousers when worn separately from other Hi-Vis items.

**Hi-Vis Class 2** – The intermediate level of visibility. An example would be a Hi-Vis sleeveless vest.

**Hi-Vis Class 3** – The highest level of visibility. An example would be a Hi-Vis jacket.

Class 3 can be achieved in two ways. Simply select an item to Class 3 such as a parka jacket or combine items with total reflective material equal to or greater than a single Class 3 item.

Ensure your staff and visitors get noticed with our full range of TIMCO high visibility workwear, including Class 1, Class 2 and Class 3 items.

## Size guide:

Height	Size	S	M	L	XL	XXL	XXXL	XXXXL
	CM	164 - 172	172 - 180	180 - 188	188 - 196	196 - 204	196 - 204	196 - 204
Chest Size	CM	86 - 94	94 - 102	102 - 110	110 - 118	118 - 129	129 - 141	141 - 153
