Code 7800 DB Range

- Traditional 5 knuckle hinge incorporating fully concealed high performance bearings
- Maintenance free, low friction design
- Available in mild steel and grade 304 stainless steel
- 3 hinge sizes available
- Tested to EN1935 : 2002 Grade 13
- Certifire approved
- Full range of options and finishes available
- Holes countersunk to suit No12 w/screws, M6 m/c screws
- 25 year guarantee

Fixed Pin

Also available in two further hinge sizes

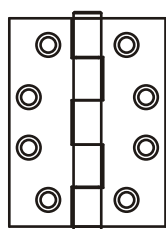

The Phoenix 7800 Dual Bearing (DB) Range utilizes advanced maintenance free polymer bushes incorporated within a traditional 5 knuckle hinge design.

An enhanced security hinge option is available for use on ballistic doorsets.

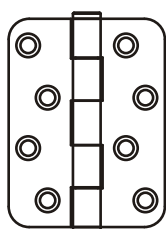

All hinge options have been tested to EN1935 : 2002 and are Certifire approved and come with a 25 year guarantee.

*Changes to the hinge joggle (part swaged parallel closed hinge gap) may be made from time to time to suit latest doorset legislation.

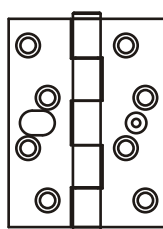

Further options:

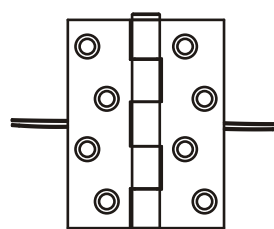

ANSI hole pattern

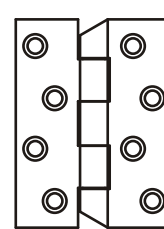

Radiused corners

Dog bolt

Conductor hinge

Anti-ligature hinge
