

Internal Door Hardware

About UAP

UAP is a door hardware specialist. We design solutions around our customers' needs, equipping them to navigate the ever-changing fire and security landscape.

We have been driving progress since 1996. Our fire and security solutions – combined with our continual innovation – ensure that our customers are always one step ahead.

Our headquarters and R&D hub are in Manchester – a region synonymous with innovation – and we are proud to serve customers in all corners of the UK.

Solutions

Fire

Stay ahead of the latest fire safety regulations with our unrivalled expertise, industry-leading training, and top-tier fire door hardware solutions.

Security

Secure the places that matter most with hardware at the bleeding edge of door and window security.

Innovation

Explore what's next in door hardware with our game-changing products that are driving progress.

Accreditations

Awards

Internal Doors

Equip your spaces with high-quality internal doors. We produce innovative door hardware that secures and protects every space.

Our solutions combine cutting-edge technology with durable design, ensuring your internal doors blend security with functionality.

Product spotlight

Fire Rated Door Hinges

A versatile Certifire approved butt type hinge which has been designed for use on either the left or right side of a timber door.

Key features

- Tested to Certifire FD30 and FD60
- Tested in accordance with EN 1935:2002 standards
- Manufactured from SS201 grade stainless steel

[Find out more](#)

2-5 Slimline Door Closer

A high efficiency, cam action slide arm closer suitable for multiple applications including those with public use.

Key features

- Provides exceptional ease of use by reducing the resistance encountered when opening a door
- Ideal for heavy doors combining additional closing force requirements
- BS8300 approved thanks to an opening force less than 30N at 0-30° and less than 22.5N at 30° – 60°

Fire door safety training

Much more than a leading supplier of fire door hardware, we're at the forefront of the advancement of fire door safety standards across our industry.

We're fire door safety experts. And have gone as far as to create the UK's first practical fire door training centre - a truly collaborative setting for fire door inspectors, installers and maintainers - that blends theory with hands-on experience.

Accredited by GQA Qualifications, our courses ensure thorough knowledge in fire door inspections, maintenance, and installations, promoting safer environments nationwide.
