HEY

**“L’Anima non pensa mai
senza un’immagine.”**

“The soul never thinks without
an image.”

Aristotele

Hey[®]

Giulia Mazzer + Giovanni Crosera

Manital amplia il proprio catalogo di maniglie e maniglioni con la collezione Hey, progettata da Giulia Mazzer e Giovanni Crosera, che insieme a Mario Mazzer, seguono la Direzione Artistica dell'azienda da due anni. Hey è realizzata in ottone e caratterizzata dalle sofisticate soluzioni tecnologiche e dalle lavorazioni della leva progettate con un occhio attento all'arte e all'architettura. Sofisticata ed eclettica è realizzata con due elementi: un innesto in ottone forgiato a caldo a cui si collega una barra tubolare in ottone disponibile in quattro varianti di lavorazione. Il profilo laterale dell'innesto in ottone forgiato a caldo ricorda l'iconica forma del buco della serratura, fondendo segni di tradizione e design contemporaneo. Hey è una maniglia dove la semplicità del segno corrisponde alla preziosità dei materiali e all'esattezza di esecuzione.

Manital expands its range of lever handles with the Hey collection, designed by Giulia Mazzer and Giovanni Crosera, who, along with Mario Mazzer, have been overseeing the Artistic Direction of the company for two years. Hey is crafted in brass and is characterized by advanced technological solutions and manufacturing processes designed with a keen eye for art and architecture. Sophisticated and eclectic, it is made up of two elements: a hot-forged stem which connects to a tubular brass bar, available in four different design variations. The side profile of the hot-forged brass stem recalls the iconic shape of a keyhole, blending traditional elements with contemporary design. Hey is a handle where the simplicity of the composition matches the preciousness of the materials and precision of execution.

HEY QUADRA

Hey Quadra®

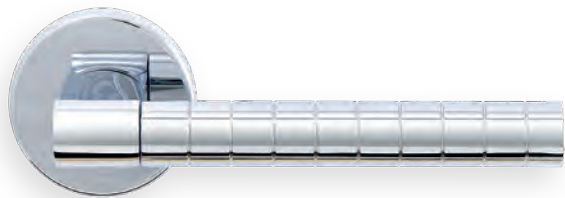

Giulia Mazzer + Giovanni Crosera

La maniglia Hey Quadra rende omaggio alla geometria pura e ritmica della texture del mosaico e a pezzi iconici del design. Una lavorazione asciutta e grafica che trasforma la maniglia in una scultura domestica.

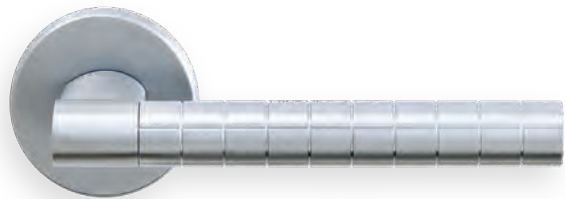

The Hey Quadra handle pays homage to the pure and rhythmic geometry of mosaic texture and iconic design pieces. The dry and graphic production process transforms the handle into a domestic sculpture.

HEY RIGA

Hey Riga®

Giulia Mazzer + Giovanni Crosera

Ispirata alle scanalature delle colonne classiche, la maniglia Hey Riga conferisce alle porte un'aria di atemporalità e grandezza. È un omaggio allo splendore architettonico che coniuga perfettamente il passato con il presente.

Inspired by the fluting of classical columns, the Hey Riga handle gives doors an air of timelessness and grandeur. It is a tribute to architectural splendour that perfectly combines the past with the present.

HEY RETE

Hey Rete®

Giulia Mazzer + Giovanni Crosera

La sua lavorazione evoca
la precisione dell'alta orologeria,
rendendola una scelta decisa
per chi cerca la raffinatezza.

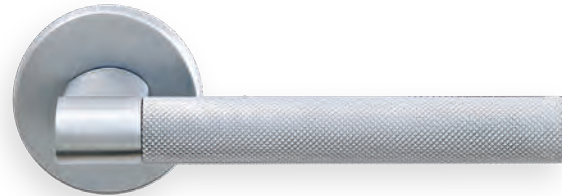

Its craftsmanship evokes the
precision of high-end watchmaking,
giving the handle a decisive look
for those seeking refinement.

HEY LEATHER

Hey Leather[®]

Giulia Mazzer + Giovanni Crosera

Con la sua superficie morbida, la maniglia Hey Leather aggiunge un elemento tattile alle vostre porte. È un capolavoro di texture e composizione dove la sensazione tattile e materica è centrale.

With its soft surface, the Hey Leather handle adds a tactile element to your doors. It is a masterpiece of texture and composition where the tactile and material sensation takes centre stage.
