TABLE SHOWING THE RATIO OF CLOSING FORCE TO DOOR LEAF WIDTH

Closing force	Door leaf width (mm)
Size 2	up to 850
Size 3	over 850 up to 950
Size 4	over 950 up to 1100
Size 5	over 1100 up to 1250
Size 6	over 1250 up to 1400

COVER PLATES

There are various cover plates with screw accessories available for floor springs. These can be used on the right, left and with double-action doors.

PIVOT HINGES / DOOR RAILS

Special upper pivots and door rails with 36 mm pivot point distance are required for the installation of a floor spring on single-action doors. (See accessories for floor springs from page 32)

THE REQUIREMENTS

The standard (EN 1154) stipulates that the door closer size (closing force) must be set to match the door leaf width. The next higher size has to be set if the structural circumstances (door height, door weight) or local conditions (wind influence) make this necessary.

THE GEZE SOLUTION

The floor spring – versions of the TS 500 NV and TS 550 NV series comprise several sizes in one housing. Using an adjustment screw, the corresponding closing force can easily be adapted to the structural and local circumstances.

Staircase for HCU Aachen

SWING DOORS

For single leaf single and double-action doors

Almost invisible, yet fully functional: Floor springs ensure that your doors will close themselves after opening. They're just as good as overhead door closers where convenience and safety are concerned. All individual parts are built into the floor or the door. Floor springs are ideal when the door design should be as unobtrusive as possible – be it at elegant portals or in upmarket shop fittings. They master this particular challenge for semi-circular arched doors or all-glass doors as a single system – and with flair at that.

TS 500 NV

Floor spring for single leaf single and double-action doors of up to 1100 mm leaf width with adjustable closing force EN 1-4 and with optional hold-open function

AREAS OF APPLICATION

- Fire and smoke protection doors
- Right and left single- and double-action doors
- Single- and double-action doors up to 1100 mm leaf width and 150 kg weight
- Hidden horizontal floor installation

PRODUCT FEATURES

- Adjustable closing force of EN1-4
- Can be used for right and left hand doors without conversion
- Closing speed can be individually adjusted
- Hydraulic latching action which accelerates the door shortly before the closed position
- Integrated back check, slows down doors that are thrown open forcefully
- All functions can be adjusted from the top and when installed

VERSIONS

- TS 500 NV with hold-open function: mechanical hold-open function in door closer with hold-open area of 85°/90°/105°/120° for single-action doors and hold-open area of 90°/95°/110°/125° for double-action doors (not permissible for use on fire and smoke protection doors)

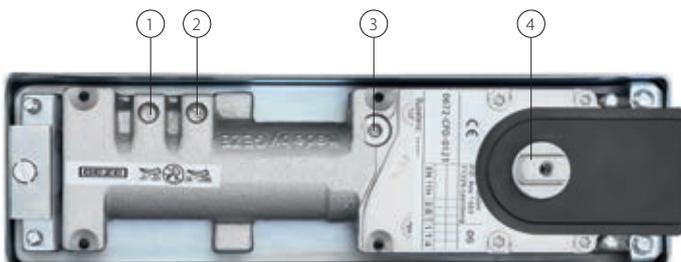

TECHNICAL DATA FOR FLOOR SPRINGS

	TS 500 NV	TS 500 NV with hold-open function
PRODUCT FEATURES		
Suitability for fire protection doors	yes	no
Use on single-action/double-action door	single-action door, double-action door	
Barrier-free in accordance with DIN 18040 up to leaf width (max.) in mm	1100 mm	-
Type of installation	floor	
Opening angle (max.)	170°	
Closing force acc. to EN 1154	EN 1 – 4	
Leaf width (max.)	1100 mm	
Leaf weight (max.)	150 kg	
DIN/ISO direction	left/right	
Product tested in accordance with	door closer tested acc. to EN 1154	
Length	278 mm	
Overall depth	82 mm	
Height	42 mm	
Length adjustment range for cement box	10 mm	
Width adjustment range for cement box	10 mm	
Height adjustment range for cement box	6 mm	

FUNCTIONS

Closing force adjustable	yes, with variable adjustment	
Closing speed adjustable	yes	
Latching action adjustable	yes, via valve	
Back check integrated	yes, mechanical, fixed	
Delayed closing integrated	no	
Position of closing force adjustment	top	
Holding open	no	mechanical
Single-action door hold-open area	-	85°, 90°, 105°, 120°
Double-action door hold-open area	-	90°/95°/110°/125°
Safety valve to prevent wilful damage	yes	
Closing sequence control integrated	no	
Thermo-constant valves	yes	
Closing effect from	170°

¹ It may be necessary to use a longer pivot depending on the installation situation. This is a simple process for all floor-mounted door closer versions in the TS 500 NV/TS 550 NV series by unscrewing the standard pivot and attaching the longer pivot.

*For more detailed information about the combination options see page 35 ff.

TS 500 N EN3

Floor spring for single leaf single and double-action doors of up to 950 mm leaf width with fixed closing force EN3 and with optional hold-open function

AREAS OF APPLICATION

- Fire and smoke protection doors
- Right and left single- and double-action doors
- Single- and double-action doors up to 950 mm leaf width and 100 kg weight
- Hidden horizontal floor installation

PRODUCT FEATURES

- Fixed closing force of EN3
- Can be used for right and left hand doors without conversion
- Closing speed can be individually adjusted
- Hydraulic latching action which accelerates the door shortly before the closed position
- Integrated back check, slows down doors that are thrown open forcefully
- All functions can be adjusted from the top and when installed

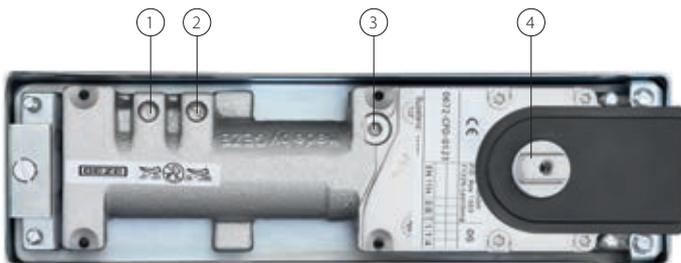

VERSIONS

- TS 500 N EN3 with hold-open function: with fixed closing force of EN3 and mechanical hold-open function in the door closer with hold-open area of 85°/90°/105°/120° for single-action doors and hold-open area of 90°/95°/110°/125° for double-action doors (not permissible for use on fire and smoke protection doors)

TS 550 NV

Floor spring for single leaf single and double-action doors of up to 1400 mm leaf width with adjustable closing force EN 3-6 and with hold-open function that can be switched on and off

AREAS OF APPLICATION

- Right and left single- and double-action doors
- Single- and double-action doors up to 1400 mm leaf width and 300 kg weight
- Highly frequented and heavy doors
- Hidden horizontal floor installation

PRODUCT FEATURES

- Closing force of EN3-6 with variable adjustment
- Can be used for right and left hand doors without conversion
- Adjustable delayed closing action, for adjusting the closing speed of the door up to an opening angle of approx. 80°
- Mechanical hold-open function in door closer with hold-open area of 85°-165°
- Hydraulic latching action which accelerates the door shortly before the closed position
- Closing speed can be individually adjusted
- Integrated back check, slows down doors that are thrown open forcefully
- All functions can be adjusted from the top and when installed

1 Use on fire protection doors not permissible

2 It may be necessary to use a longer pivot depending on the installation situation. This is a simple process for all floor-mounted door closer versions in the TS 500 NV/TS 550 NV series by unscrewing the standard pivot and attaching the longer pivot.

*For more detailed information about the combination options see page 35 ff.

TS 550 NV F

Floor spring for single leaf doors up to 1400 mm leaf width with hold-open function that can be switched on and off

AREAS OF APPLICATION

- Fire and smoke protection doors
- Right and left single- and double-action doors
- Single- and double-action doors up to 1400 mm leaf width and 300 kg weight
- Highly frequented and heavy doors
- Hidden horizontal floor installation

PRODUCT FEATURES

- Closing force of EN3-6 with variable adjustment
- Can be used for right and left hand doors without conversion
- Adjustable delayed closing action, for adjusting the closing speed of the door up to an opening angle of approx. 80°
- Hydraulic latching action which accelerates the door shortly before the closed position
- Closing speed can be individually adjusted
- Integrated back check, slows down doors that are thrown open forcefully
- All functions can be adjusted from the top and when installed

TECHNICAL DATA FOR FLOOR SPRINGS

TS 550 NV F

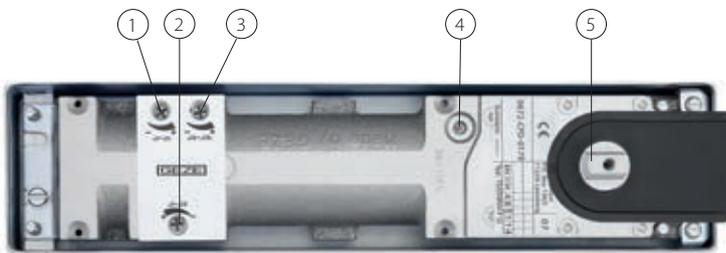

PRODUCT FEATURES

Use on single-action/double-action door	single-action door
Closing force acc. to EN 1154	3 – 6
Leaf width recommended up to	1400 mm
Leaf weight (max.)	300 kg
Door stop DIN direction	left/right
Product tested in accordance with	door closer tested acc. to EN 1154
Length	342 mm
Overall depth	82 mm
Height	54 mm
Length adjustment range for cement box	9 mm
Width adjustment range for cement box	10 mm
Height adjustment range for cement box	6 mm

FUNCTIONS

Closing force adjustable	yes, with variable adjustment
Closing speed adjustable	●
Latching action adjustable	yes, via valve
Back check integrated	yes, mechanical, fixed
Delayed closing integrated	●
Position of closing force adjustment	Top
Safety valve to prevent wilful damage	●
Thermo-constant valves	●
Closing effect from	180°
Holding open	no

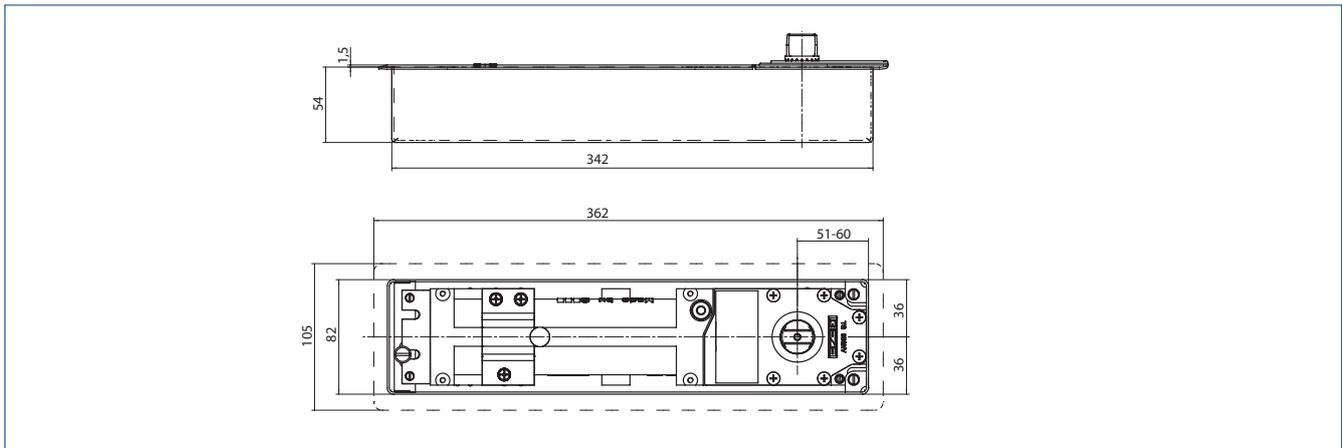

● = yes | – = not available

1 = Latching action setting | 2 = Closing speed setting | 3 = open Closing delay setting | 4 = Closing force setting | 5 = Frontal gearing pivot

RSZ 7 smoke switch control unit

Extendable smoke switch control unit
for all GEZE hold-open devices

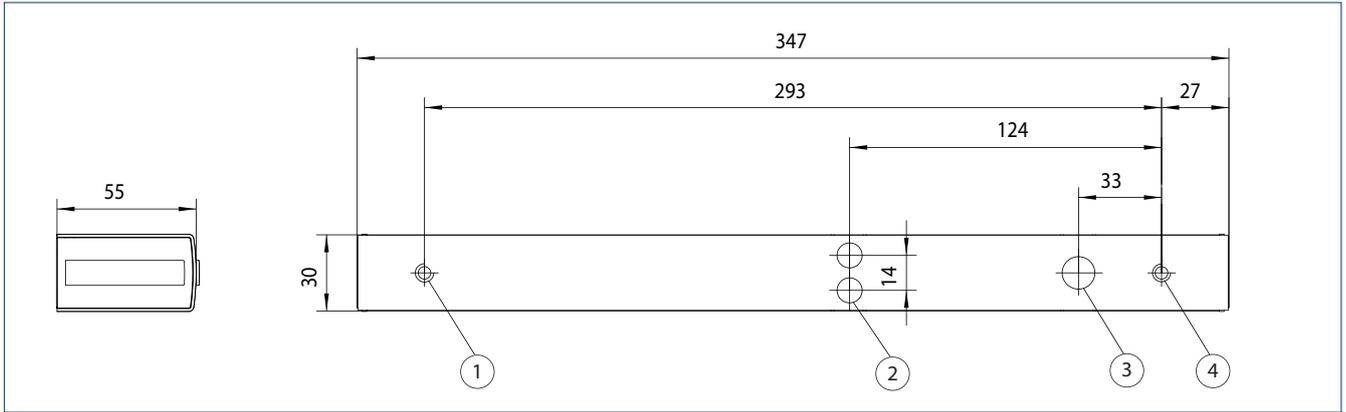

AREAS OF APPLICATION

- Approved for all GEZE hold-open devices for the early detection of fire and smoke
- Difficult lintel situations, for example with too little space above the smoke chamber
- Installation above the active leaf on the vertical wall
- Installation possible with surface-mounted line-feed

PRODUCT FEATURES

- Telescopic function for bridging overhangs of up to 30 mm
- Connection to 230 V power supply and 24 V DC supply of the hold-open device
- Power supply of the hold-open system is interrupted in the case of an alarm and the doors close
- Integrated smoke switch with automatic adaptation of the alarm threshold
- Compensates for light contamination of the smoke chamber and thus increases the service life
- Visual display of the current control panel status
- Additional smoke switches can be connected
- Surface-mounted line-feed possible

GEZE

SWING DOORS

Glass clamping fittings

Glass doors are popular – they provide perspective and have a timeless design. Glass clamping fittings should also fit in harmoniously. GEZE Glass Fittings will win you over with their conservative appearance and diversity. Depending on your interior, you can choose between surfaces made from satined and polished stainless steel. And to ensure that transparency is not at the expense of safety, we have lockable glass clamping fittings to meet your special needs – locks with strike boxes.

GEZE Glass Fittings

GEZE Glass Fittings

AREAS OF APPLICATION

- For indoor and outdoor systems
- For single-action and double-action doors
- For static all-glass systems
- For toughened safety glass
- For glass thicknesses 10 and 12 mm
- Door leaf weights of up to 100 kg
- Suitable for single and double leaf swing doors

PRODUCT FEATURES

- Elegant cover caps made of polished or brushed stainless steel
- Problem-free adjustment for glass thicknesses of 10 – 12 mm

TECHNICAL DATA GLASS FITTINGS

GEZE Glass Fittings

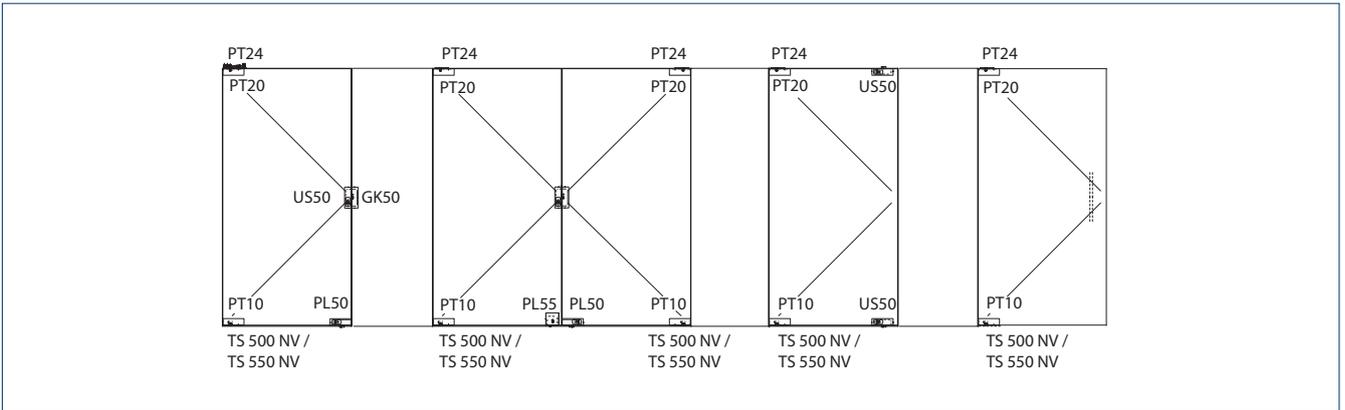

PRODUCT FEATURES

Design depth irrespective of thickness of glass	32 mm

GEZE Glass Fitting US 50 RD Lock fitting central lock with round bolt with installation materials for glass thicknesses 10 and 12 mm, with Euro profile cylinder and strike plate / recess	matt stainless steel	169770
	polished stainless steel	180486
GEZE Glass Fitting US 50 Lock fitting centre lock with flat bolt with installation materials for glass thicknesses 10 and 12 mm, with Euro profile cylinder and strike plate / recess	matt stainless steel	169776
	polished stainless steel	180491
GEZE Glass Fitting PL 50 RD Lock fitting corner lock with round bolt with installation materials for glass thicknesses 10 and 12 mm, with Euro profile cylinder and strike plate / recess	matt stainless steel	169775
	polished stainless steel	180490
GEZE Glass Fitting PL 50 Lock fitting centre lock with flat bolt with installation materials for glass thicknesses 10 and 12 mm, with Euro profile cylinder and strike plate / recess	matt stainless steel	169777
	polished stainless steel	180492
GEZE Glass Fitting GK 50 Strike boxes for locking fitting central lock with installation materials for glass thicknesses 10 and 12 mm	matt stainless steel	169772
	polished stainless steel	180488
GEZE Glass Fitting GK 20 Fanlight strike box (double) for two corner lock fittings with installation materials for glass thicknesses 10 and 12 mm	matt stainless steel	169771
	polished stainless steel	180487

ACCESSORIES

GEZE Glass Fitting Round bolt strike Locking recess for lock fittings with round bolts with installation materials	matt stainless steel	169778
	polished stainless steel	180493
GEZE Glass Fitting Square bolt strike Strike plate for locking fittings with flat bolt with installation materials	matt stainless steel	169779
	polished stainless steel	180494

SWING DOORD

Modular fixed panel profile systems

The clip-on aluminium cover profile can easily be replaced without changes to the basic system. This is made possible by the clamping plates that can be freely positioned in the profile and which adjust to all glass thicknesses.

Construction components outside of the system such as glazing blocks to calibrate the glass panes are required because the relevant calibration units are integrated within the clamping system. This simplifies installation, reduces stocks and increases safety. The clamping screws on the clamping plate are screwed into the freely positionable threaded nuts which secures them against unauthorised removal.

Fixed panel profile with clip-on cover profile design 40

Modular fixed panel profile with clip-on cover profile design 40

AREAS OF APPLICATION

- For glass thicknesses 8, 10 and 12 mm
- For secured outer areas
- For toughened safety glass (ESG)
- For horizontal and vertical glass edging
- For use in combination with Glass Fittings and Pendulo double-action doors

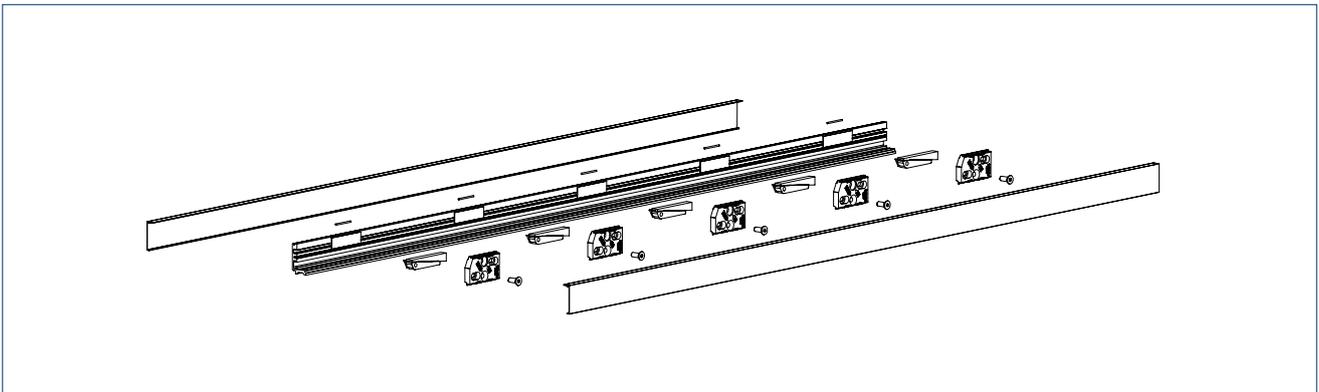

TECHNICAL DATA FOR MODULAR FIXED PANEL PROFILE SYSTEMS

Product features	Profile design 40
Overall depth	30 mm
Profile height	40 mm
Usable glass thicknesses	8, 10 and 12 mm
Installation heights (max.)	4,000 mm
Glass pane weight (max.)	150 kg
Glass pane width (max.)	2,500 mm
Available surfaces	Silver-coloured and stainless steel optic anodised
Material	Aluminium
Length (max.)	6,000 mm
Burglar-resistant installation of the fitting	yes
Cover caps	Aluminium/Stainless steel
Position of the clamping unit in the basic profile	variable

* without front end caps also for 12 mm

Clamping units

Clamping units

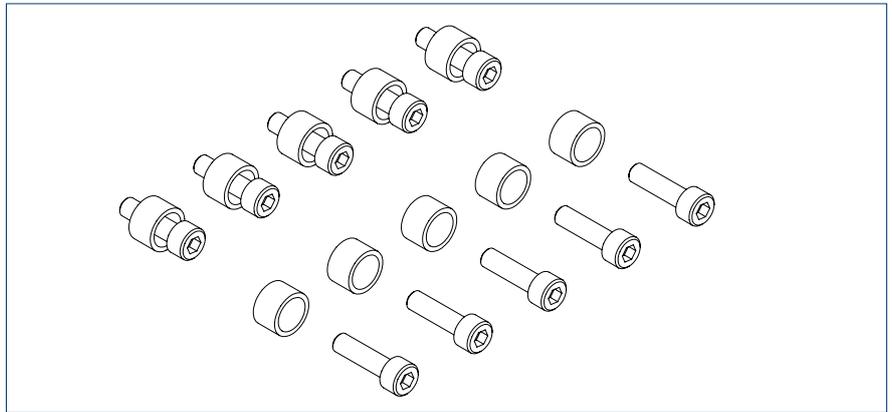

Clamping shim for 8 mm glass thickness

Clamping insert for 8 mm glass thickness

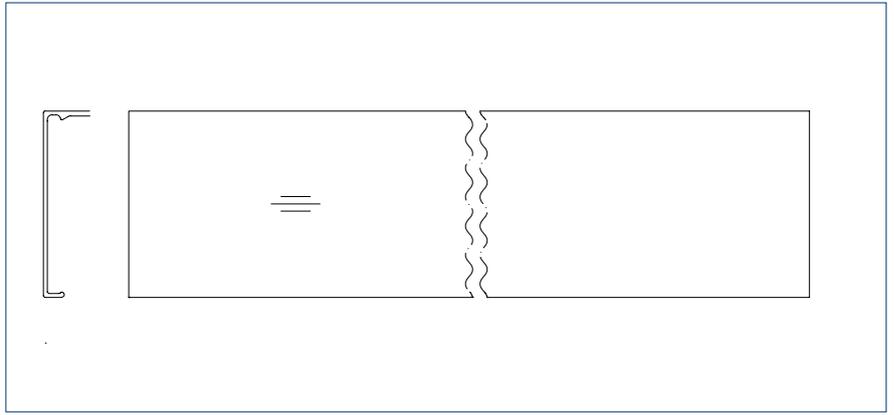

Safety set for fanlights and free-hanging glass panes

Safety set for fanlights and free-hanging glass

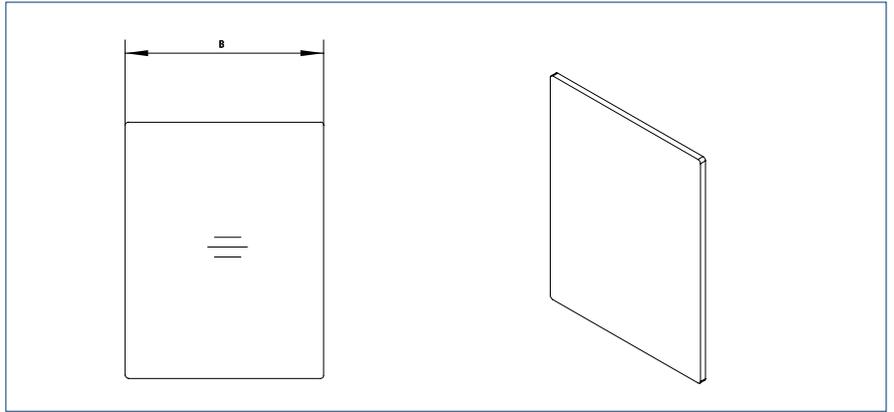

Clip-on cover profile design 40

Clip-on cover profile design 40

End cover caps for profile design 40

Front side cover cap profile design 40, glass thicknesses 8, 10 and 12 mm
 B = Width (30 mm for glass thicknesses 8 and 10 mm, 32 mm for glass thickness 12 mm)

ORDER INFORMATION

Designation	surface	Version	ID no.
Clamping system units Set 20 Basic set for basic profiles, consisting of 20 clamping jaws 8-12 mm, 20 fixing screws, 20 threaded nuts, 20 adjusting wedges, 20 clamping inserts and 20 sealing insert sections			156692
Clamping system unit Set 01 for basic profile each consisting of one clamping jaw 8-12 mm, fixing screw, screw-in nut, adjustment wedge and clamping insert			151810
Clamping shims (fixed panel) Set 40 for 8 mm glass thickness, adequate for 20 clamping units (Set = 40 pc.)			156758
Clip-on cover profile design 40- aluminium	anodised	EV1	155742
	anodised	stainless steel optic	151137
Front side cover cap for profile design 40 for glass thicknesses 8 and 10 mm (set = 2 pc.)	anodised	EV1	156700
	brushed	Matt stainless steel	156701
Front side cover cap for profile design 40 for glass thickness 12 mm (set = 2 pc.)	anodised	EV1	156716
	brushed	Matt stainless steel	156717
Set safety variant for fanlights and free-hanging glass panes consisting of 5 pieces glass protection sleeves and 5 safety screws			156760

We are GEZE.

For liveable buildings

GEZE stands for innovation, high quality and comprehensive support of building technologies. From the initial idea, planning and operational implementation with standard products to customised system solutions and individual service and maintenance plans. We offer an extensive product range of door, window and safety technology products and are a major driving force behind the digital networking of building automation.
